

You are one step away from loving your sparkling clean property.

*"Not every power washing company is the same. I was tired of low-quality jobs, damages to my property from over-spraying, and the use of harsh chemicals harmful to the environment. I am so thankful Mr. Pressure Wash came along because they stood out way above the competition. When you see the difference yourself, you will understand what I mean."*

- Larry Eskilson (Kirkland, WA)

## Services

No Water? No Problem! Mr. Pressure Wash has self-contained trucks that allow us to clean areas with no access to water. We can even clean areas where you don't want the surroundings to get wet, because our specialized equipment produces no splash or spray.

- Apartments
- Retail stores
- Office Buildings
- Industrial complexes
- Parking lots
- Warehouse floors
- Hotels and motels
- Airplane hangers
- Business storefronts
- Machine shops
- Vinyl siding
- Decks
- Paint preparation
- Garage floors
- Roofs
- Sidewalks
- Oil stains
- Concrete floors
- Awnings

Our pressure washer looks more like a vacuum cleaner than a spray gun.

What you need to know to become a more educated and environmentally responsible decision maker:

**No splash or spray** - Clean warehouse floors where you don't want the surroundings to get wet.

**Eco-friendly** - 98% of the water is sprayed and vacuumed up immediately for reuse, saving water usage.

**No zebra stripes** - you get an evenly cleaned surface.

**Save time** - the job is done 60-80% faster than traditional spray guns.

**Prevent damages** - minimize damages to your surface caused by over-spraying using traditional spray guns.

**No water access required** - we can clean anywhere - even areas without water access.

**Save money on water** - your water bill won't be increased because we use and reuse our own water.

**Clean tough oil stains** - without using harsh chemical degreasers, our special enzyme technology cleans tough oil stains using microbes in an eco-friendly way.

**Dry fast** - with minimum water used, your floor is dried quickly, minimizing slippage and possible liabilities.

**Competitive prices** - it's time for you to receive great pricing and a quality job.

*"Our machine shop, warehouse floor, and parking lot were really dirty. We wanted the water to be picked up due to environmental concerns and Mr. Pressure Wash was exactly what we needed. I am really glad I called them."*

- Lisa Hathaway (Kent, WA)
